CAREER OBJECTIVE

Computer Science and Engineering undergraduate with a strong foundation in machine learning, data analysis, and software development. Hands-on experience building real-world projects including sales forecasting models, computer vision systems, and intelligent applications using Python and modern frameworks. Focused on applying technical and problem-solving skills to develop practical, scalable solutions. Seeking an internship opportunity to contribute to real-world software and AI-driven projects.

EDUCATIONAL BACKGROUD

B.Sc. in Computer Science and Engineering

American International University–Bangladesh (AIUB), Dhaka

2023 – Present

CGPA: **3.86 / 4.00**

Higher Secondary Certificate (HSC)

Rajshahi City College, Rajshahi

Rajshahi Board — 2020

GPA: **5.00 / 5.00**

Secondary School Certificate (SSC)

Rajshahi Collegiate School, Rajshahi

Rajshahi Board — 2018

GPA: **5.00 / 5.00**

PUBLICATIONS

- **Industry 5.0-Driven Deep Learning Framework for Long-Term Global C02 Emission Forecasting** ECCT 2026, ACSR (Springer Nature) — 2026
- **Few-Shot Multimodal Instruction Tuning for Vision-Language Models** ECCT 2026, Taylor & Francis — 2026
- **Biomedical LLM Hallucination Detection via Classifier-Conditioned Factuality Classification** ECCT 2026, Taylor & Francis — 2026

- **End-to-End Deep Learning Framework for Kidney MRI Segmentation and Explainable CKD Detection Using Transfer Learning** ECCT 2026, ACSR (Springer Nature) — 2026
- **A Hybrid Deep Learning Framework for Real-Time Traffic Risk Prediction** IEEE QPAIN 2026 — Chittagong, Bangladesh
- **Domain-Specific NLP for Personalized Radiation Treatment Pathways with LLM Fine-Tuning** IEEE WIECON-ECE 2025 — Cox's Bazar, Bangladesh
- **Securing the Future: Enhancing Cybersecurity in Supply Chains** Book Chapter, IGI Global — 2025

PROJECT EXPERIENCE

1. Real-Time Gesture & Color Detection System (2025)

Built a real-time hand gesture and object color detection system using Python, OpenCV, and MediaPipe, designing gesture recognition logic and optimizing real-time performance for interactive vision-based applications.

2. DhakaConnect Bus Route Finder (2024)

Built a C#-based transportation system to identify optimal bus routes across Dhaka using route and stop datasets to support efficient urban navigation.

3. Car Rental Management System (2024)

Developed a database-driven application for managing vehicle bookings, customer records, and rental transactions within a rental management environment.

REVIEWER EXPERIENCE

IEEE Access — Journal Reviewer

Conducted structured peer reviews evaluating novelty, technical rigor, experimental validation, and reproducibility of AI research.

PLOS ONE — Journal Reviewer

Reviewed interdisciplinary computational research integrating machine learning methodologies with real-world applications.

IGI Global — Book Chapter Reviewer

Evaluated scholarly book chapters in emerging technologies, cybersecurity, and applied artificial intelligence systems.

ACADEMIC AWARDS

Dean's Award — Fall 2024–2025

Awarded for outstanding academic performance and achieving top-tier results during the Fall 2024–2025 semester at American International University–Bangladesh.

Dean's Award — Spring 2023–2024

Recognized for academic distinction and strong academic performance during the Spring 2023–2024 semester at American International University–Bangladesh.

TECHNICAL SKILLS & STRENGTHS

- Machine Learning, Deep Learning , Artificial Intelligence
- Computer Vision & Natural Language Processing (NLP)
- Data Cleaning, Preprocessing & Feature Engineering
- **Programming:** Python, C++, Java, C#, SQL
- **Tools:** Jupyter Notebook, Google Colab, VS Code
- **Libraries:** OpenCV, MediaPipe, Scikit-learn, TensorFlow (basic), Prophet
- **Databases:** MySQL, PostgreSQL

EXTRA CURRICULAR ACTIVITIES

- General Member, AIUB Research and Development Club (AIUBRnD) 2023–Present
- General Member, IEEE Student AIUB Branch, 2023–Present
